This is a community effort to start a dialogue at UCSD about first generation college attendees. In support of this important effort, we are planning a movie screening followed by an interactive panel discussion. We hope you will join us to launch this important conversation.

## 6:00pm - 8:00pm

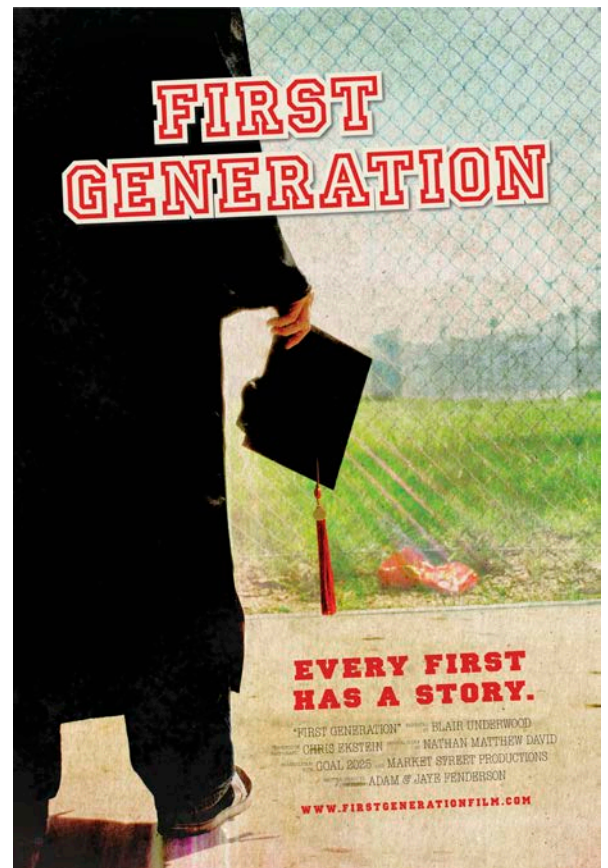

### Movie: *First Generation*

An award-winning documentary narrated by Golden Globe nominee Blair Underwood, *First Generation* tells the story of four high school students - an inner city athlete, a small town waitress, a Samoan warrior dancer, and the daughter of migrant field workers - who set out to break the cycle of poverty and bring hope to their families and communities by pursuing a college education. We will also serve fun movie snacks.

## 8:00pm - 9:00pm

### Panel Discussion

Following the movie, we will have an interactive panel discussion with first generation students, alumni, faculty and supporting members of the community. You will hear about their journey, personal narratives, opportunities, and new thinking in this area. We will also open up this larger conversation to attendees.

PLEASE join us and be a part of this important conversation!!
